SPORTS TALK JANUARY - APRIL 2017 NEWSLETTER

Dear Sir/Madam,
Greetings!

Lakshya, a sports NGO, was started way back in 2009 in Pune by a group of sports enthusiasts with a mission to nurture budding talent in sports and with an aim to bridge the gap between the aspirations and realizations of sports talent in the country.

A professionally managed non profit organization, Lakshya has extended holistic support to more

than 60 sports persons from eight different disciplines while ensuring world class training to the players that helps in enhancing their performance in their respective sport.

A majority of our players have represented India at the highest level in the international circuit and have won many accolades, making the country proud. Five of our players have represented India in the 2012 London Olympics & Seven at Rio Olympics 2016.

To achieve this vision, we look forward to your support in joining hands with us in this noble cause and contribute in your own way through donations/sponsorships for India's excellence in the sports arena.

Thanks & Regards,
FOR LAKSHYA
Supporting Sports

Vishal Chordia
President
